

## HELPS MEETING

January, 2022

The Helps team did not meet in the month of January. We are facing some changes as a team; one of our members is resigning and two other members have new work hours which cause us to find a new time that most of us can meet. We need more members to serve on the team.

### Team Reports via email:

Chair team: Chris Stackpole

Losing another member. I had three people thinking about it, but they all ended up saying no.

Network team: I have the core network infrastructure up and running. I have a few smaller pieces that I'm working on plus a little tweaking I need to do. Ritchey is testing now and so far, performance has been good for him. The guest wireless is functional and in use by members of Gashland. I'm putting together a team and lots of documentation for a presentation soon. Big thanks to Chris Schupp, Tim Eckerly, Jim Lorenzetti, John Wopata, Gary Stewart, and Sarah (night security; unsure of last name) who have all assisted in getting this project where it is.

Coffee Ministry: Debbie Failing

To date, we are still covered for the 4 Sundays a month. 5th Sundays will be Adhoc.

The couple that covered the last one is out of town for a while. And I have not been able to make contact with the person that expressed interest in coffee ministry.

In December I looked into replacing the coffee machine. John Wopata of the building committee is reviewing the options at this time. I should have more info in January

FirsTeam: Linda Reeve

FirsTeam is moving forward.

First service has a committed team for three Sundays a month. Still availability for one more committed team member for the third Sunday. Fifth Sundays are all temps currently. Availability for subs is also open.

Second service has teams that serve 2-3 Sundays, depending whether there are 4 or 5 Sundays/month. Still availability for subs and committed team members.

A Big Thank You to the twelve team members who served at the three different Christmas Eve services!!

All FirsTeam members have new name tags and lanyards with the new GEPC logo on them. Thank you, Ellie.

Conversation: Diane

The team has been off since the middle of December. Since a meal will be served this upcoming session, more tables and chairs are needed and more kitchen help. We are in need of lots of volunteers.
